

Rail Sector

H.A. Marks is an award winning family owned construction services company that has been trading continually for more than 70 years. During this time we have been at the leading edge of construction, developing creative innovative and sustainable solutions to meet client's needs. We have successfully extended our services across the country via our project delivery teams and created job opportunities and skill development in local communities where we deliver projects.

H.A. Marks are a specialist Rail and Underground Contractor offering:

- Builders Works
- Design & Build Services
- Civils
- Vitreous Enamel
- Canopy Cut Backs
- Envelope & Cladding Works

Rail projects are delivered by a specialist team with experience of providing support to clients undertaking civil engineering and building projects on the rail infrastructure. H.A. Marks have successfully delivered projects for various clients across a range of disciplines from Civils, Station fabric improvements, Cladding and refurbishment including; AFA works, Congestion Relief, Station improvements and Crossrail to name a few.

Installation

We have extensive experience on the Underground and Rail Network, having carried out many refurbishment programs at stations including; Embankment, Brixton, Harrow on the Hill, Clapham Junction, South Kensington, Victoria, Farringdon and Paddington Stations. We are fully approved and accredited under the Railway Industry Supplier Qualification Scheme (RISQS) and also hold competency for safe works planning as part of our ongoing audited Management Systems. Our employees are directly trained, experienced installers who all hold current PASMA and CSCS certification.

H.A. Marks are approved contractors for:

Corrib House, 1 Beadman Street, London, SE27 0DN
